Information about production

The area of the display which is actually visible is slightly smaller than the size of the lightbox, therefore we do not recommend placing any text in the area of the margins.

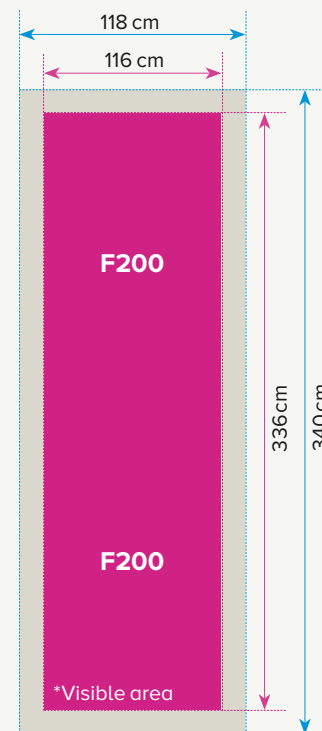

1 F400 display

Size of production medium	118 x 340 cm
*Visible area	116 x 336 cm

2 F200 displays (one above the other)

Size of production medium	118 x 170 cm
*Visible area	116 x 166 cm

Printing

We will be glad to take on the printing for you or refer you to one of our preferred print partners.

Illuminated posters

For our rotating backlit pillars we recommend F400-format backlit film with a laminated matt viewing surface. In the case of F200 posters, please note that delivery of two posters per rotating backlit pillar is required.

Delivery

Please label posters individually, stating the content and language, and include a delivery note with details of:

- Customer/agency
- Content
- Language
- Format
- Posting dates

Delivery address

Clear Channel Schweiz AG
Filiale Geroldswil
Chrummacherstrasse 2
CH-8954 Geroldswil
